Possible Standard Errors

- . NAV updates could be dated, system might pick the last known NAV in absence of latest NAV data.
- . Rounding off error both on balance units and values.
- . Redemption requests placed outside wealthy platform might not be reflected. Valuation and Unit Balances reported in the enclosed report / statement may not account for all instant redemption requests placed by investor (if any) because such transactions may be pending for accounting at AMC/RTA end.
- . FDs done in offline format may not be visible in the holding report.
